

Tournament Scoring

Hybrid Point + Weight System Effective with the 2012 schedule

Points are awarded on the place of finish + 1 point per pound (and fractions of pounds) of weight accrued per event.

- Based on maximum 20 placement points per tournament.
 - Tournament winner will be awarded 20 points with points awarded in descending order for each place of finish (i.e. 2nd Place = 19, 3rd Place = 18 etc.).
 - All participants will accumulate points for their place of finish.
 - In the event that there is a tie for any place of finish, those participants will split the point value for that place of finish + the value of the next place down evenly (i.e., Joe and David both weighed 10.00 lbs. each, for a tie at 10th place, so both of them will be awarded 10.5 points [$11 + 10 = 21 \div 2 = 10.5$] for that tournament and the next highest finisher will be awarded 9 points).
 - 1 point is then added to the participants placement score per full pound of fish weighed in.
 - (i.e. a weight of 3.45lbs would get an additional 3.45 points added the place of finish points)
 - Members that participate but do not weigh in fish will not be awarded participation points.
 - Final yearend results are based on a maximum 7 of a possible 10 (or 6 of 9 in the event a regularly scheduled event is canceled by the Tournament Director) tournaments for the year. Each participant will choose which three tournaments to drop from their yearend results.
- ⇒ Example: A person weighing in 7.85lbs and finishing 5th in the tournament would receive 16 points for placing 5th + 7.85 points in weight for a total of 23.85 points for the event.
- ⇒ Ramp Payouts: will be based on total weight only for both Big Bass and team total. The above points system is for determining AOY (Mr. Bass) and post season (Zone, 4-Man Events etc.) rankings only.
